PROCESO DE INSTALACION DE WINDOWS 10 Hecho por Samuel Rodriguez García

INSTALACIÓN EN VIRTUAL BOX

Lo primero que debemos hacer, es contar con una ISO del sistema operativo, en mi caso, la he descargado en Internet.

Posteriormente, en Virtual Box, clicamos donde pone "Nueva" y en imagen ISO, seleccionamos el archivo que hemos descargado.

Ahora, creamos un usuario y una contraseña para la maquina virtual. También escogeremos cuanta memoria RAM y cuantas procesadores queremos destinar a esta maquina virtual.

Una vez tengamos estas configuraciones, debemos arrancar la máquina virtual.

Procedemos con la instalacion seleccionando las opciones que queramos a nuestro gusto

Como no tenemos ninguna clave de producto, debemos escoger laa siguiente opcion: I don't have a product key.

A continuación, seleccionamos la opcióbn que más se corresponda con lo que queremos instalar. En mi caso, Windows 10 Pro

Ahora, seleccionamos la opción Custom.

Custom: Install Windows only (advanced)

The files, settings, and applications aren't moved to Windows with this option. If you want to make changes to partitions and drives, start the computer using the installation disc. We recommend backing up your files before you continue.

Seleccionamos la partición. La partición la hemos creado al principio del todo.

Y empezará a instalarse Windows10.

Una vez instalado, pedirá algunas preferencias de usuario. Por ejemplo, comenzamos con la región.

Ahora, seleccionamos que vamos a usar Windows para uso personal.

En mi caso, ahora selecciono "Offline account" para no iniciar sesión con mi cuenta. Y en la siguiente pantalla, le damos click a limited experience.

Ahora, creamos un usuario y una contraseña-

Por ultimo, terminamos de seleccionar algunas configuraciones menores como las mostradas a continuacion:

Continue where you left off by importing from your other browser

When you browse the web using Microsoft Edge, we can bring your browsing data such as favorites, browsing history, cookies and more into Microsoft Edge from your other browser.

Yes, import
